

# WE PUSH THE BOUNDARIES OF TECHNOLOGY TO CREATE AMAZING AR GRAPHICS

netventure sets standards in the development  
of innovative technologies for TV productions

## NETVENTURE FACTS

With our headquarter in Berlin and branches in France and Italy, we work worldwide for national and international customers in media production for more than 25 years. With 30+ permanent employees and a network of specialized international freelancers and partners, we are offering high-quality products and reliable end-to-end services for your productions. We focus on augmented and virtual reality, tracking solutions, technical development, design, software, implementation and live operating (remote or onsite) of TV graphics for live sports and show events.
